## Brief Introduction of Shaoxing Haohua

Shaoxing Haohua Timber Industry Co., Ltd. , which works as a subsidiary of Zhejiang Fudeli Timber Industry Co., Ltd. (founded in 1994), was founded in 2016. Its manufacturing base is located in Shaoxing, Zhejiang. Zhejiang Fudeli Timber Industry Co., Ltd. has three manufacturing bases for Flooring, Stairs and Home products. The products cover the whole timber products customization system, such as floor, staircase, wooden door, wall panel, wardrobe, cabinets and bathroom furniture.

As one of the subsidiaries of Fudeli, Haohua is mainly engaged in the design, R&D and sales of engineered wood flooring and hardwood flooring. The company adheres to the development policy of “two-wheel drive, two-wing flying together” at home and abroad, and has been developing into a global international brand with “WOODTOPIA” as the brand and floor design R&D as the core.

Haohua has established six major timber raw material procurement bases in South America, North America, Oceania, Europe, Southeast Asia and Africa, to ensure the sustainable development of the company with a perfect global quality wood procurement system.

In the international market, the “WOODTOPIA” trademark has been successfully registered in the United States, Australia and other countries (regions), and also has established more than 200 sales network channels in North America, Europe, Africa and other places with a number of foreign competitive dealers’ cooperation agreements.

Haohua has dozens of new patents to help better develop into a global international brand. Meantime, it has obtained FSC certification to improve the level of enterprise competition, create differentiated services and enhance the core competitiveness.

Mouldings

All mouldings go through the same color treatments as flooring and will have the same inherent color variations

T-Moulding

Skirting

L-Moulding

Elegance Grade

Elegance grade flooring keeps a smooth and modern surface. These floor offers greater uniformity in flooring grain, colour and structure.

Rustic Grade

Rustic Grade has larger tight knots and the most color variation. It's a great choice when character marks and contrasting appearance are desired.

Aged Character

Character has some color variation, mineral coloring, and small knots. It has a plank face that is free of most finishing imperfection.

Extra Rustic

Extra Rustic look with knots, cracks and more colour variation. These designs accentuate the natural character which give interior design an old world feeling.
